A CLASS OF ONE

There is only one car like the multi-award-winning Mazda MX-5. Only one car that combines the true roadster elements – an impressively high power-to-weight ratio, outstanding dynamic agility, rear-wheel drive and perfect 50:50 weight distribution – with Mazda's unique approach to car design. The original Mazda MX-5 was a pure roadster, inspired, as with the latest model, by the philosophy of Jinba Ittai: 'rider and horse as one'.

Now, three model generations after first being unveiled, the Mazda MX-5 is the world's best-selling roadster. Advances in technology may have transformed the genetics of the driving experience – but we're proud that the intimate bond between car and driver that put the original into a class of its own has remained the same ever since.

PURE ROADSTER

A fusion of art and science where everything works in harmony to deliver the ultimate adrenalin rush. A car that makes you feel connected. Alive. In touch. With responsive handling, rapid acceleration, individual comfort and eye-catching style, the Mazda MX-5 is engineered for people in search of the driving fun that only a pure roadster can provide.

PURE PASSION

You make the connection the instant your eyes fix on the Mazda MX-5. It's as if you were there when the designers first put pen to paper. As if you were inside their head. You can sense their enthusiasm. Feel their passion. You're every bit as excited at the prospect of driving this car as they were when tasked with designing it. Call it synchronised heartbeats; a shared pleasure in advanced driving dynamics and sensuous curves.

PURE ADRENALIN

There's not another soul about. Just you, your car and the road. The wind is in your hair. The scenery flashes by. Suddenly you're into your favourite series of tight bends and the car is alive in your hands. The connection is instantaneous. It's as if your Mazda MX-5 can read your mind; the responsive engine, stiff chassis, precise steering and slick gear change encouraging you to slice through every twist and turn with millimetre precision.

PURE ZOOM-ZOOM

The Mazda MX-5 is a pure expression of Zoom-Zoom. But purity does nothing to inhibit choice. To begin with, you must decide between the traditional soft-top or the streamlined Mazda MX-5 Roadster Coupe, featuring the world's fastest power-operated hardtop, opening or closing in just 12 seconds. And then, the choice of model. Spirited 1.8i or 2.0i? The powerful and assured 2.0i Sport Tech with Bilstein suspension delivering even more agile performance? Or how about the new 2.0i PowerShift with paddle-shift operated transmission and creature comforts such as a BOSE® premium audio system and Bluetooth® connectivity? All in all, a tough choice, but one that you can be sure will always deliver an outstanding drive experience whatever your decision.
